About Us

We offer residential and commercial cleaning services addressing the needs and concerns in your environment. We clean: carpet, upholstery, ceramic tile, most hard wood and vinyl flooring . We also offer air duct cleaning and sanitization helping you keep a healthy clean environment.

If you walk on it, we probably clean it !

Carpet Cleaning

We offer two systems of cleaning. Choose standard wand cleaning or our rotary restorative system (see the demo video on our web site)

which produces the maximum level of deep soil extraction. You will be thoroughly satisfied with the results. These cleaning methods, in conjunction with the industries most advanced, environmentally safe cleaning materials and our highly skilled technicians, you can rest assured your carpets are as clean as possible .

We Guarantee it !

Ceramic Tile Cleaning

Ceramic tile and grout are among the toughest cleaning tasks. Good results require specialized cleaning materials and process. In many cases rotary equipment will be utilized and the results are often amazing. Most of our customers say their tile floor and walls; "look like the day we had it installed".

Coming Soon!

We will soon be able to clean your natural stone floors and countertops

Hardwood Floor Restoration

When your hardwood looks dull and you can't seem to get it clean, it's time to consider restoration. We can restore most hardwood floors to their original beauty. Until now, the only way to restore hardwood floors was to sand and re-finish. Our dust free restoration system is faster, cleaner and much more cost effective. You will be amazed at the results. When properly maintained, your wood floor will last a life time.

Upholstery Cleaning

Different upholstery requires different cleaning techniques. Our technicians will recommend the appropriate cleaning method for your upholstery. We'll also recommend a protectant to help keep your furniture looking great.

Green Clean Service

We offer Green Balance products upon request that are rapidly biodegradable that contain no solvents and are completely non-toxic. This system is ideal for cleaning in homes with folks having chemical sensitivities or allergies because this system contains no added fragrances or dyes.
